

# HELP US REACH MORE STUDENTS!

# UrbanPlan

EDUCATING TOMORROW'S VOTERS, NEIGHBORS,  
COMMUNITY LEADERS, AND LAND USE PROFESSIONALS

UrbanPlan is a realistic, engaging and academically challenging classroom-based curriculum providing high school students a hands-on experience with the issues, tradeoffs and economics of urban redevelopment. UrbanPlan is an award winning curriculum developed by the University of California Berkeley.

UrbanPlan Minnesota began in Roseville Area High School (RAHS) in 2006. Today, RAHS has been using the UrbanPlan curriculum for 13 years! In 2016 the UrbanPlan program was expanded into Saint Paul Central High School (SPCHS), and in 2017 the program launched at the School of Environmental Studies in Apple Valley, MN. In 2019, we have the opportunity to expand further by launching the program at Mounds View High School to reach 100 additional high school students!
